

Ruff Tuff V-Cam Traffic Doors

www.coolcurtain.com | Call (800) 854-5719

Technical Specifications:

- 1½" thick door panels.
- Internally welded steel frame.
- Includes full perimeter gasketing.
- Panels are insulated.
- Comprised of hermetically sealed steel and tempered hard board.
- Extra thick elastomeric coating with diamond-texture finish.
- Standard 13"X17" window per door panel.
 - Option for larger windows.
- 3/16" thick polycarbonate shatter-proof window set in a high-impact urethane frame.
- Stainless steel V-Cam hinges come standard.

Features:

- Built to withstand maximum punishment from forklift and pallet-jack traffic.
- Available in custom sizes up to 96"X120".
- Door panels swing 180°.
- Steel-reinforcement makes our warp-proof V-Cam door the ideal candidate in wash-down environments and areas where salt-based chemicals are present.
- FDA-approved Elastomeric coating resists scuffs, dings, and scarring.
- All components are corrosion resistant.
- Easy to clean with a damp cloth.
- Vision light in each door panel.
